

Learn Using of Equation

October 9, 2021

Abstract

List some examples of equation.

1 equation with rank

$$T \cdot A_{t-1} = A_t \implies T = A_t \cdot A_{t-1}^+ \quad (1)$$

2 equation with no rank

$$T \cdot A_{t-1} = A_t \implies T = A_t \cdot A_{t-1}^+$$

3 equation with multiple lines

$$\begin{aligned} x &= t + \cos t + 1 \\ y &= 2 \sin t \end{aligned} \quad (2)$$
